

SKAGIT RIVER WOODS

Barbeque Fireplace Installation Requirements

SRW Bylaws Article 10 Section 18 Fireplaces and Barbeques: BBQ's shall be placed on a reinforced concrete pad at least 4 inches deep, and be made out of rock, bricks or equivalent material. There must be a clear area of at least 5 ft from around outside base to all trees, brush, stumps or any other combustible material that must be grveled and maintained. Overhead branches or other combustible material must be cleared 25 ft above any bbq or firepit. All bbq's must be approved by SRW.

SRW FIRE REGULATIONS

1. Fires are not to be left unattended.
2. Do not allow children to play with firebrands.
3. Put campfires out with water before leaving campsite.
4. Do not burn when wind will scatter sparks.
5. Do not burn materials that will create offensive odor or smoke.
6. DO NOT BURN DURING A BURN BAN – approved propane units only.
